DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed February 9, 2007 has been placed in the application file and the information referred to therein has been considered as to the merits.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: none of the prior art of record is considered to teach, suggest or render obvious the invention of claims 1-7.

For example, the prior art of record does not teach of an adsorbent tank storing adsorbent therein for adsorbing residue from the fuel cell system; a vacuum pump connected to the adsorbent tank for separating the residue adsorbed by the adsorbent; a pressure gauge for determining the pressure of the adsorbent tank; shut off valves mounted on input passages and output passages of the flow fields; third shut off valves mounted on input passages to the adsorbent tank, which are diverged from the output passages between the flow fields and the second shut off valves; and a fourth shut off valve mounted on an output passage from the adsorbent tank to the vacuum pump.

Newly cited EP 0750361 teaches of providing and adsorption tank 20 however this reference is not held to sufficiently teach, suggest or render obvious the claimed invention. It is noted that the placement of the adsorption tank and valve arrangement of EP 0757361 is significantly distinct from that of the claims. Additionally EP 0757361

Art Unit: 1745

lacks the claimed pressure gauge and vacuum pump. Valve placement is held to be particular to the specific system arrangement and the claimed valve arrangement would not have been readily apparent from the disclosure of EP 0757361. The specific arrangement of the system of claim 1 provides for removal of residue from the fuel cell system by employing the adsorbent tank, vacuum pump, valving and connectivity recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
